

# Commercial Installations

A commercial application includes all non-domestic installations, ranging from Guest Houses to large Factories.

An installation of 5m<sup>2</sup> could be classed as small scale commercial; however, commercial installations will usually be larger than this.

All commercial installations will be different, which is why we offer a bespoke design service.

The form below can be completed in a variety of ways to decide what is needed for your commercial installation.

When you have gathered this information contact us and we will advise you of the perfect solution to suit your needs. You can call us and we will go through each point directly, or alternatively, call us to request the form by post or email, or copy the form and fax to us at:

**028 9127 0572.**

The form can also be downloaded from our website:
